# lung cancer

doesn't *discriminate*,  
it can affect anyone!

Lung Cancer Network Australia (LCNA) aims to empower lung cancer patients, their families and carers with reliable and current information as well as support and advocacy.

support • information • empowerment • advocacy

## Our Mission

### Inform

- Distribute reliable information
- Raise awareness in the community

### Connect

- Encourage patients and carers to connect with one another

### Empower

- Encourage patients to maintain close relationships with their doctor, cancer nurse and multidisciplinary team
- Encourage patients and their families to be proactive in their ongoing treatment and care
- Support those who wish to take up advocacy roles, represent the lung cancer community and raise community awareness

### Represent

- Work in partnership with other organisations to develop or update resources and guidelines
- Educate the community about lung cancer risks and symptoms to promote early detection

### Fundraise

- Encourage people to raise funds for lung cancer research and patient support

### Patient resources

- Patient DVDs
- Printed resources
- E-Newsletters
- Social media
- Awareness pins
- Consumer forum
- Telephone support, including fortnightly patient support groups
- Lung care nurse
